As taxation touches every aspect of personal and business finance, clear and comprehensive tax guidance is more important than ever.

Ligris Tax Services, LLC is an affiliated organization providing a full array of tax guidance and planning. We help individuals, businesses and non-profits successfully navigate the complexities of the tax code and make fully informed decisions.

Our work is especially relevant today as families and businesses seek to understand the content and implications of the Tax Cuts & Jobs Act, passed in 2017.

Combining CPA and legal experience, we offer clear, actionable direction on federal, state and local tax matters as well as multistate and international tax issues. We also offer accounting services, including the preparation of returns.

As part of our services, we will:

- Prepare state and federal tax returns for businesses and individuals
- Clarify the impact of the Tax Cuts & Jobs Act
- Quantify the tax implications of business plans and pending transactions
- Determine the most tax-efficient entity type and structure for a business
- Offer guidance on reducing taxes on real estate gains via 1031 exchanges
- Structure wills and trusts to reduce tax liabilities while achieving desired outcomes
- Help to create non-profit organizations that meet requirements for tax-exempt treatment
- Speak to business and civic groups regarding current tax topics
